

SAFETY COVERS

Built for Safety. Designed for Strength. Made for Peace of Mind

ABOUT OUR COVERS

Your Safety is Our Priority.

Our Safety Pool Covers are engineered and designed to be the safest and strongest cover possible. While some competitors use a single-strap system on their covers, these Safety Covers are made with double strapping throughout the cover.

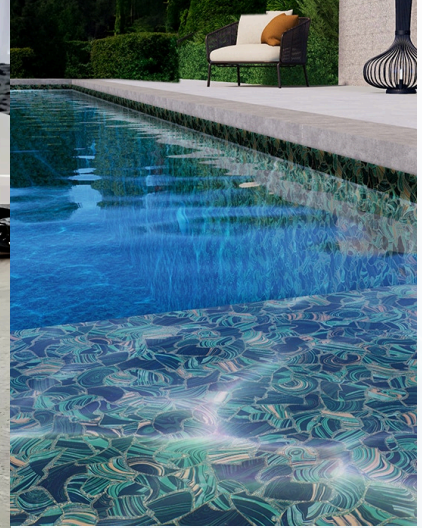

The double strapping guarantees almost twice the break strength compared to the single strap. With our solid brass anchoring system and stainless steel springs, our goal is to make the safest cover possible. Our covers meet and exceed all ASTM standards, providing your family and pool with maximum protection.

Double Strapping

Compared to single strapping used by other cover manufacturers, our double strapping is nearly twice as strong. We use double strapping on our entire cover, not just the perimeter edge, which provides you with extra strength and safety.

Strap Spacing

Our strap spacing is much closer than other cover manufacturers. With closer spacing, you cannot lift the edge of the pool cover to gain access to the swimming pool.

FEATURES

STANDARD MESH: 10 yr Pro-Rated Warranty

A tighter woven mesh allows water to pass through while keeping large particles of dirt and debris out of your swimming pool, making opening and closing season easy. Available in green construction.

XL MESH: 15 yr Pro-Rated Warranty

A tightly woven mesh that blocks nearly 100% of the sun's rays, preventing algae growth. Rain and melting snow pass right through for easy drainage and safety. Durability and strength will protect your family and investment. Available in green/black, tan/black, blue/black, and gray/black construction.

HEAVY-DUTY SOLID: 10 yr Pro-Rated Warranty

Available with or without mesh drain panels. Covers without mesh drain panels block 100% of sunlight and are sold with an automatic pump. To meet ASTM standards, the pump must be used at all times. Available in green, blue, tan, and gray.

IN ACCORDANCE WITH ASTM-F 1346-1991

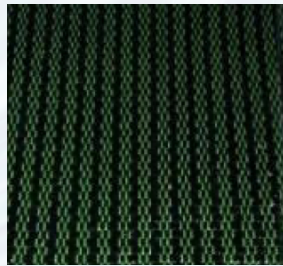

ALL OF OUR SOLID COVERS OR MESH COVERS...

...give your pool a blanket of protection and the peace of mind that you have one of the safest pool covers available. Both the Mesh and Solid Safety Pool Covers offer you the features listed below.

- Double-Web strapping that is more than 50% stronger than single-web strapping
- Solid covers are made of state-of-the-art reinforced vinyl material
- Solid brass anchoring system
- Custom Manufacturing
- Order processed quickly
- Stainless steel springs
- XL Mesh covers made of grade A polypropylene. The dense mesh weave keeps out sediment and reduces algae growth

GAP CLOSING

- **Eliminates gaps** between the safety cover and the raised wall area
- Retrofits to any existing wall treatment with an **anchor and cable system**
- **Custom sizes available** to fit tight radiuses
- **Dual action protection** safety cover sandwiched between the upper and lower chambers
- **Ease of storage** – gap closers are separate from the safety cover
- Prevents debris, small pets, rodents, etc. from getting into your pool
- **Color-coordinated** to match your safety cover

Installing a pool safety cover is not simply about protecting your pool—it's about safeguarding what matters most: **your family, your pets, and your peace of mind.** By keeping your water cleaner, reducing maintenance costs, and providing a reliable, year-round barrier, a safety cover delivers lasting protection and convenience. It is an investment that quickly pays for itself in safety, savings, and confidence, ensuring your backyard remains both beautiful and secure. **To learn more or to explore your options, we invite you to contact our office and speak with our team today.**
